

FREE RESOURCE

# WEEKLY PLANNER.

Plan the week on paper. Sync it to your phone. One page, filled out every Sunday night, keeps the whole week ahead from running you over.

WEEK OF \_\_\_\_\_

NAME \_\_\_\_\_

03

TOP 3 PRIORITIES THIS WEEK

| SUN* | MON | TUE | WED | THU | FRI | SAT |
|------|-----|-----|-----|-----|-----|-----|
|      |     |     |     |     |     |     |
|      |     |     |     |     |     |     |

\* SUNDAY IS PREP DAY. FILL IN THE WHOLE WEEK AHEAD BEFORE MONDAY STARTS.

DUE THIS WEEK

SYNCED TO MY PHONE CALENDAR

# FOUR STEPS.

This is the same system Lawrence teaches in his student workshops. It works because it is small enough to actually keep up with.

---

## 01 Fill in the grid every Sunday

Sit down Sunday night and write down every class, practice, shift, and commitment for the week ahead. Walk into Monday already knowing what is coming.

---

## 02 Circle your top 3

Out of everything on the page, pick the three things that matter most this week. Those are the ones that get done no matter what.

---

## 03 Check it every night

Before bed, look at tomorrow's row. Cross off what is done. Move what is not to a day that has room for it.

---

## 04 Copy it to your phone

Add the same due dates and events to your phone's calendar app. Paper for planning, phone for reminders. Use both.

---

### FOR PARENTS

#### Link your calendar to theirs

Ask your student to share their phone calendar with you, or add their due dates and practice times to a shared family calendar. When everyone can see the same week, nobody misses a pickup, a deadline, or a game.
